

ANNUAL COUNCIL – 21 MAY 2013

ITEM 15 – REVIEW OF ELECTORAL ARRANGEMENTS – WARDING PATTERN SUBMISSION

SUBMISSION BY THE CONSERVATIVE GROUP

That the draft warding pattern submission on behalf of the Conservative Group be as set out in the report with the following amendments:-

Ward 1

The existing Appleby Ward (not including Normanton le Heath) reducing the electorate to 1838 (from 1971)

Reason

For reasons of community identity as Normanton le Heath residents work closely with Packington Parish Council

Ward 5

The existing Ravenstone & Packington Ward including Normanton le Heath but not including The Limes estate which would reduce the electorate to 2078 (from 2428)

Reason

For reasons of community identity as transport links are such that the residents of The Limes estate are more aligned with Coalville than with Ravenstone and Packington which is separated by a busy main road.

Ward 28

Part of the existing Snibston Ward comprising Polling Districts QC & QD to include The Limes estate and the following streets from part of the Coalville Ward comprising Polling District HA

Belvoir Road (2-26)
Jackson Street
Kane Close
Margaret Street
Owen Street
Thomas Court

And the following streets from Polling District HC

Berrisford Street
Belvoir Road
Bridge Road (evens)
College Close
Melbourne Street

And the following street from Polling District HB

High Street

This would increase the electorate to 2652 (from 2169)

Reason

As above.
