

Marlborough Square

Design concept

Item /feature	Description
1	Reduce speed limit through speed restriction zone and design features to slow speeds and communicate to drivers that they are in a shared environment, i.e. raised table, change in surface materials and narrowing to carriageway.
2	Narrower carriageway and removal of mini roundabout. Wider pavement. Channel blocks – Charcon ECO Countryside kerb. Removal of guard rails.
3	Charcon Andover Washed Flags – colour TBC.
4	Taxi rank – ability to increase capacity by designating central parking spaces for different uses/functions during different parts of the day.
5	Removal of raised surface and by-pass lane. New tree flush with main surface level.
6	Tighter corner, wider pavement (subject to tracking)
7	Removal of landscaped areas, replaced with flush surfacing and new trees. Removal of guard rails.
8	Clear zone to allow pedestrians to move across the square easily.
9	Extent of works
10	Cycle parking.
11	20 minute shopper bays. Eastern most bay can be coned off for hearses when required.
	Resurface with Charcon Andover Washed Flags (three shade mix to be confirmed but likely Silver Grey, Light Grey and Mid Grey, format 600x200).
