8.2 Supporting victims and witnesses

Following a government consultation in 2012 ('Getting it right for victims and witnesses'), Police and Crime Commissioners will from October 2014 be responsible for locally commissioning most of the emotional and practical support services for victims of crime provided by the voluntary, community and social enterprise sectors.

I will commission support services which provide specialist support for victims and witnesses of crime. There is significant evidence of the link between being a young victim of crime and youth offending. This shows how the priorities are linked and our response across the partnership must also understand and respond to these crossovers.

so that performance is not just restricted to achievement against targets but most importantly on meeting the needs of victims.

Strategic Priority 5 - To increase reporting of domestic abuse and ensure a positive outcome for victims and witnesses of domestic abuse

Domestic abuse is a term used to cover all forms of abuse, control and violence between those aged 16 or over who are, or have been intimate partners or family members. I recognise that domestic abuse can affect all communities and as such I am committed to ensuring that Leicestershire Police continue to provide an accessible service to all victims of domestic abuse.

"I am keen to encourage male and female victims and those in same sex relationships to report incidents of domestic abuse to our support services."

Safeguarding Children and Adults

Safeguarding covers a wide range of issues including domestic violence, abuse and neglect.
