Friday collection participation

[illegible][illegible]

Compliments received from residents regarding the weekly separate food waste collection trial

I'm so pleased to be able to recycle more - the kids are enthusiastic about it too. I do hope the scheme gets taken further.

A brilliant idea, which is working well. Didn't realise how much food waste I throw away until participation.

I would to compliment you for the trial and everything you are doing to help people to recycle more and send less to landfill - it's brilliant!

The food waste trial is a brilliant idea.

I am very impressed with the system and how much it's working for us and I couldn't praise the program enough.

We think the food waste recycling is absolutely fantastic, we have used it so much. The collection drivers are also so courteous and efficient. Really hoping the trial becomes a permanent arrangement.

My family are very happy with recycling our food waste and it is having a real impact reducing the amount of waste in our black bin on a weekly basis.
