

CABINET – 26 May 2020

ITEM 8 – FUTURE HIGH STREET FUND SUBMISSION PROPOSALS

This is a written submission by the Liberal Democrats Group in support of the proposals outlined in the report after it had gone to the Community Scrutiny Committee on 6 May and ahead of it's consideration by Cabinet on 26 May 2020.

It has been requested that this submission be included in the papers of the committee and circulated as such.

1. Comments of the Liberal Democrat Group

On behalf of the Liberal Democrat team we would like to express our support for the high street bid which was presented to Scrutiny.

We are quite excited by the proposals and are eager to see the plans for our town come to fruition and not just another report sitting on "someone's" desk! We feel that the bid is a massive step in the right direction in helping to not only compliment the already independent businesses within the town but will finally give Coalville an opportunity to diversify and become a pleasant and vibrant place for all.

May I also take this opportunity to thank the officers involved for sacrificing their time to allow us all the opportunity to help shape this very impressive and extremely important proposal for Coalville.

Should you require any assistance or support with this proposal then please do not hesitate in contacting us.

Best regards
Angela
