- Commercial Strategy

### **Executive Powers to be exercised**

On the 19 March 2020 and 8 April, the Leader decided to change the executive arrangements to reflect the new regulations were in place due to the COVID 19 situation. The arrangements were as follows:

1. Executive decisions shall be made by Cabinet, sitting as a collective body where that is practicable
2. Where Cabinet is not able to meet, the Executive decisions will be made by the relevant portfolio holder.
3. Should the portfolio holder be unavailable to act, then the decision will be made by any other member of the Cabinet

The Leaders strong preference was for decisions to be made by Cabinet, collectively and the other arrangements-were only to be used in exceptional circumstances.

The Leader has kept these arrangements under review. He has decided that, as the Council moves from the Response phase of dealing with the COVID 19 pandemic into the Recovery phase, it is appropriate to remove the delegation to individual portfolio holders. Therefore as in previous years the Executive responsibilities will be delegated to the Cabinet to take decisions collectively.
