

To Counciller John Legrys

We the under mentioned residents of Central Court would like to make a complaint regarding the infestation of ants which have taken over our building both in the corridors and in flats. Jackie Seager who lives at number 6 has already rang the council with no satisfactory reply .People have bought ant killer at their own expense and sprayed the corridors but we cannot get rid of them. We now ask you that something is done about this infestation as we are now fed up with this problem.

We look forward to hearing from you regarding this problem.

The residents of Central Court

Jackie Seager
