NOT PROTECTIVELY MARKED

I am writing to object to the Variation of the Premises Licence of Ashby Ivanhoe Football Club.

The Council must appreciate the Football Club is situated in a quiet residential area, the housing estate was here prior to the Football Club moving into its current Premise, not the other way around.

Public Safety – In brief, the current car parking arrangements are completely inadequate, this means when games are played the cars all park on Lower Packington Road on the verge, at the junction of Cambrian Way with Lower Packington Road, all up Cambrian Way and around the Junction of Wrekin Close. At times the cars are double parked up Cambrian Way on both sides of the road. Some of this parking is clearly illegal and does cause an issue of putting other road users in danger manoeuvring around the parked cars. There is a Public Safety issue here with all the cars parked here, if the club is have live music events which go on later into the night, the car parking problem will continue and just be an issue later into the evening. I am assuming the Club are trying to have larger and bigger events at the Club House. The car park is too small for the club to advertise private functions which could attract a high number of people, if there is a party booked where are all these people going to park at night.

The lack of parking space at the club and illegal parking by those using the facilitates is a Public Safety issue.

I have not personally called the Police or Parking Wardens, but if they were called there would definitely be offences they could deal with.

Public Nuisance – I am concerned about late night amplified music and live music and the affect it will have on residents, during the summer of 2020 there were incidents when there was noise coming from the Club which could be heard in the immediate area. There have also been incidents where groups of males have walked from the club most with alcoholic drinks in hand up Cambrian Way. I am concerned if the events at the club go on later then this will be a frequent event and it causes nuisance and noise. I do not want to have to put up with people leaving the club late at night and either walking past the houses or getting into cars and making a noise.

The addition of live music inside and out will have a detrimental effect on residents living nearby, in the warmer months when windows will be open no one wants to be disturbed by the sound of not only music, but no doubt people shouting and making a noise.

Again if the Club are to hold music events (from 12.00 to 23.00) both inside and outside this can only lead to residents being disturbed by the noise, there is no way the club can guarantee there will not be a noise problem. Once you add in the fact people will be drinking alcohol the noise issue will only get worse. The Club is an old building and will not have any soundproofing which could reduce the noise.

If the Club is given the go ahead for music events I can foresee them putting on more and more of these meaning residents will have to put up with noise problems on a more frequent basis.

As stated this is a quiet residential area and no one wants to have to put up with an increase in persons attending the club particularly late at night, as this brings additional parking issues.

As for the live music inside and outside, the Council must appreciate this will just lead to noise complaints and local residents being disturbed. **It's a Football Club not a Nightclub.**
