Asset Disposals (Capital Allowance)	Income from sale of HRA (non RTB) assets. Target/estimate to be used one year in arrears. (Includes Broughton Street District	40,000	325,000	325,000	325,000	100,000	100,000	100,000	100,000	
Windfall RTB receipts	Heating building). Based on attributable debt income projections in accordnace with the Right to Buy and One for One replacement policy			461,000	770,859	231,503	170,687	117,358	56,680	
Green & Decent Funding					18,000					
Total Funding		17,458,000	15,290,118	16,940,176	19,393,995	7,974,796	7,567,407	7,567,727	7,567,959	
Cumulative Over / (Under Resource)		3,235,000	613,451	613,451	-	10,034	9,907	10,227	10,459	

The RCCO provision required for 2014/15 and subsequent years is dependent upon the number of properties within Year 3 of the Decent Homes Improvement Programme that we're able to gain access to in order to complete works.

For every pre 2012 failing property that we're unable to complete works in there will be a reduction in average expenditure of £8,014 per property and a reduction in decent homes backlog funding of £6,802 per property, the net affect being a reduction in expenditure of £1,212 per property. The value of RCCO will therefore fall for every pre 2012 failing property where work is not completed by £1,212 per property.

For every post 2012 failing property within the program that we are unable to gain access to there will be a reduction in expenditure of £8,014 per property. The value of RCCO will therefore fall for every post 2012 failing property where work is not completed by £8,014 per property.
