Please take this as confirmation that I strongly object to the licence review.

I note that that from the application made by Mr Olaf that it evident there is a relationship between Mr Olaf and the complainant.

It is also evident Mr Olaf has not been acting in a professional manner when collaborating with the complainant.

Reference Appendix 1) 16.07.2021 "the environmental officer has serious concerns about this when the license was being considered"

Reference Appendix 1) 20.05.2022 "Eden Bistro has been told they were not allowed to play live music outdoors"

Now to the debacle of an Application made by Mr Olaf for the third time which questions the general competence of Mr Olaf in his role.

I add that Eden bistro opened around the same time as:
Railway pub.
Rawdon pub.
Conkers and their festivals/events. Which their event dates correspond with most of the complaint dates.
Timber festival. Which their event dates correspond with some of the complaint dates.
Canal festival. Which their event dates correspond with some of the complaint dates.
Moira furnace festivals/events. Which their event dates correspond with some of the complaint dates.
Minors welfare festivals/events. Which their event dates correspond with some of the complaint dates.
Boat festival. Which their event dates correspond with some of the complaint dates.
Conkers camping and caravanning club site. Which their event dates correspond with some of the complaint dates.

Possible more reopened after lockdown Covid 19, are some of these complaints (which have now reduced) complainants haven gotten used to the lockdown environment and struggling to adjust to the reopening?

From the places stated above the Festivals/Events create most of the Noise.

Mr Olaf objected to the original License with unfounded statements which was succeeded by facts, evidence, and general common sense, I believe this license review orchestrated vendetta amongst the complainant and Mr Olaf having failed in his first attempt in the object to the license

Kind Regards,

███████
