1. INTRODUCTION

- 1.1 In 2014, the Chartered Institute of Public Finance and Accountancy (CIPFA) and the International Federation of Accountants (IFAC) collaborated to produce The International Framework: Good Governance in the Public Sector. The International Framework defines governance as comprising the arrangements put in place to ensure that intended outcomes for stakeholders are defined and achieved. It states that in order to deliver good governance in the public sector, both governing bodies and individuals working for public sector entities must try to achieve their entity's objectives while acting in the public interest at all times.
- 1.2 CIPFA, in association with the Society of Local Authority Chief Executives (SOLACE), has published their Framework entitled 'Delivering Good Governance in Local Government 2016'.
- 1.3 The diagram below illustrates¹ the core principles of good governance in the public sector and how they relate to each other: Principles A and B permeates implementation of principles C to G.

¹ Delivering Good Governance in Local Government 2016

- 1.4 In North West Leicestershire, good governance is about how the Council ensures that it is doing the right things, in the right way and for the benefit of the communities it serves. The starting place for good governance is having shared values and culture and a framework of overarching strategic policies and objectives underpinned by robust systems and processes for delivering these.
- 1.5 By ensuring good governance is in place, the Council will ensure it has high standards of management, strong performance, the effective use of resources and good outcomes which in turn will lead to increased public trust.

- 1.6 The Council is committed to the seven core principles of good practice contained in the CIPFA framework and will test its governance arrangements against this framework and report annually (via its annual assurance review and Annual Governance Statement).
- 1.7 These seven core principles, also known as the Nolan Principles - The Seven Principles of Public Life, apply to anyone who works as a public office-holder. This includes all those who are elected or appointed to public office, nationally and locally, and all people appointed to work in the Civil Service, local government, the police, courts and probation services, non-departmental public bodies (NDPBs), and in the health, education, social and care services. A link to the Government website setting out the principles is below:

2 SUMMARY OF COMMITMENT

- 2.1 By adopting this Local Code of Corporate Governance, we are responding to the CIPFA/SOLACE Joint Working Group Guidance and Framework entitled 'Delivering Good Governance in Local Government'.
- 2.2 In doing so the Council will:
- Accept the core principles set out in section 3 below as the basis for its Corporate Governance arrangements.
 - Publish an Annual Governance Assurance Statement with the Council's Statement of Accounts.
 - Draw up Action Plans of improvements to corporate governance arrangements, such plans to be monitored by the Audit and Governance Committee.

3 FUNDAMENTAL PRINCIPLES OF CORPORATE GOVERNANCE

- 3.1 Set out in this document is the Council's proposed Local Code of Corporate Governance which is based on the seven core principles (as set out in the illustration above) adopted for local government from the report of the Independent Commission of Good Governance in Public Services.

Principle A – Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of rule

These should build on the Seven Principles of Public Life (The Nolan Principles). • Leading by example and using these standard operating principles or values as a framework for decision making and other actions. • Demonstrating, communicating and embedding the standard operating principles or values through appropriate policies and processes which are reviewed on a regular basis to ensure they are operating effectively.

The presumption is for openness. If that is not the case, a justification for the reasoning for keeping a decision confidential should be provided. • Providing clear reasoning and evidence for decisions in both public records and explanations to stakeholders and being explicit about the criteria, rationale and considerations used.
