Recommendations	THAT MEMBERS APPROVE THIS REPORT AND COMMENT AS APPROPRIATE

1.0 BACKGROUND

- 1.1 The Authority's Treasury Management activity is underpinned by CIPFA's Code of Practice on Treasury Management ("the code"), which requires local authorities to produce Prudential Indicators and a Treasury Management Strategy Statement annually on the likely financing and Investment activity.
- 1.2 Treasury Management is defined as "the management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."
- 1.3 The Authority's current Treasury Management Strategy Statement, including the Borrowing Strategy, Debt rescheduling Strategy, Annual Investment Strategy, Prudential Indicators and Annual Minimum revenue Position Statement were approved by Council on 25 February 2014.
- 1.4 This is the third in-year report of 2014/15, to inform Members of the Authority's treasury activity and enable scrutiny of activity and performance. The first activity report was presented to the Audit and Governance Committee on 24 September 2014. The second activity report was

presented to Audit and Governance Committee on 10 December 2014. These reports supplement the annual Treasury Stewardship Report, which will be presented to this Committee and Cabinet as soon as possible after the end of the financial year.

3.0 THE U.K. ECONOMY AND EVENTS.

- The second estimate of Q4 GDP released by the ONS confirmed the UK economy growing by 0.5% over the quarter and 2.7% year-on-year. Both of these figures were unchanged from the first estimate released in January and met market expectations.
- Output saw positive quarterly growth for three of the four main industrial groupings. The main areas of growth came from agriculture, forestry and fishing which grew by 1.6% (an upward revision of 0.3%) and services which grew by 0.8% (unrevised from the previous estimate).
- Production grew by 0.1% (an upward revision of 0.2%). Within production, electricity, gas, steam and air conditioning and supply contracted by 2.7% whereas the remaining three sub-industries experienced growth.
- In other areas, Manufacturing grew by 0.2% (revised upwards from 0.1%) while mining and quarrying including oil and gas extraction, and water and sewerage both grew by 0.5%. Construction saw a quarterly contraction of 2.1% (revised downwards from a 1.8% contraction). In contrast, when comparing Q4 2014 to Q4 2013 construction grew by 4.7%.
- Expenditure components experienced mixed levels of growth for the quarter. The trade deficit narrowed by £2,637m with exports and imports growing by 3.5% and 1.3% respectively. Household final consumption expanded by 0.5%, marking its fourteenth consecutive quarter of growth. General government final consumption expenditure was flat while non-profit institutions serving households, gross fixed capital formation and business investment contracted by 3.3%, 0.5% and 1.4% respectively.
- Employees' compensation increased by 1.2% in Q4 2014; this is the third consecutive quarter of growth. Other income expanded by 0.2%; an eighth consecutive quarter of growth. Taxes less subsidies on products and production increased by 2.5%, a contrast to its 0.6% contraction in Q3 2014. Gross operating surplus of corporations decreased by 2.6%.
- There was no change to UK monetary policy with official interest rates and asset purchases maintained at 0.5% and £375bn respectively.

4.2 The investment position varies throughout the year as it is dependent upon cash flow. Examples of significant areas that can impact on cash flow are collection of Council tax, business rates, grants, capital receipts, payments to other precepting authorities or central government and interest on treasury activity.

4.3 In the period April 2014 to February 2015, the capacity for investment has currently increased by £6.194m. The volatility of balances is normal throughout the year and a number of factors contribute to this:

- The Authority traditionally benefits from the receipt of Council Tax and Business Rates during the first ten months of the financial year;
- Revenue expenditure is more evenly weighted throughout the financial year;
- Capital expenditure is more heavily weighted towards the latter part of the financial year due to the time required to schedule programmes of work or award contracts.
- The patterns of income and expenditure are reflected in the Authority's cash flow projections. This is monitored and revised daily.

4.4 The current increased capacity for investment is expected to reverse towards the end of the financial year and this is in line with the Authority's experience. The capacity for investment has decreased slightly (by £0.554m) since the activity report presented in December.

5.0 BORROWING ACTIVITY.

5.1 The Authority's Borrowing Strategy 2014/15, approved by Council on 25 February 2014, incorporates a prudent and pragmatic approach to borrowing to minimise borrowing costs without compromising the longer-term stability of the portfolio, consistent with the Authority's Prudential Indicators.

- 5.2 The Authority's revised estimated borrowing requirement for the current financial year is £1.24m. In the two subsequent financial years this is estimated to be £0.749m in 2015/16 and £0.908m in 2016/17. This was reported in the Additional Costs of the Decent Homes Improvement Programme 2014/15 – Appendix C, to Council on 16 September 2014.
- 5.3 The Authority has not undertaken any new long-term borrowing during the period.
- 5.4 A market loan with a value of £1m was repaid in February 2015. This loan had an interest rate of 7.99%.
- 5.5 The Authority's cash flow remained positive during the period. The Authority did not require any temporary loans during the period.

6.0 DEBT RESCHEDULING ACTIVITY.

- 6.1 The Authority's Debt Rescheduling Strategy 2014/15, which was approved by Council on 25 February 2014, establishes a flexible approach where the rationale for rescheduling could be one or more of the following:
- Savings in interest costs with minimal risk.
 - Balancing the volatility profile (i.e. the ratio of fixed to variable rate debt) of the debt portfolio.
 - Amending the profile of maturing debt to reduce any inherent refinancing risks.
- 6.2 No opportunities for debt rescheduling were identified which conformed to the above rationale. Accordingly, the Authority has undertaken no debt rescheduling activity during the period.
- 6.3 The Authority's portfolio of thirteen loans - ten PWLB loans and three market loans - will continue to be monitored for debt rescheduling opportunities that comply with the Authority's Policy and rationale.

7.0 INVESTMENT ACTIVITY.

- 7.1 The Authority's Investment Policy and Strategy 2014/15, which was approved by Council on 25 February 2014, established that the major policy objective is to invest its surplus funds prudently.
- 7.2 The Authority's Investment Policy and Strategy 2014/15, establishes that the major policy objective is to invest its surplus funds prudently. The Authority's investment priorities are:
- security of the invested capital;
 - sufficient liquidity to permit investments; and,
 - optimum yield which is commensurate with security and liquidity.
- 7.3 The counterparties that the Authority currently utilise all meet the criteria set out in the Treasury Management Strategy Statement 2014/15 and are monitored by the Authority's Treasury Management Advisors. The minimum long term rating for counterparties is A- or equivalent. The counterparties and amounts currently invested are shown below:

- 7.4 The average rate of return on the Authority's investment balances during the period was 0.61%. For comparison purposes, the benchmark return (average 7-day London Interbank Bid Rate or LIBID rate) for the period to the end of February 2014 was 0.35%. The average 7 day London Interbank Offered Rate (LIBOR) rate for the period to the end of February 2014 was 0.48%. The comparison of rates of return against a benchmark is less relevant when set against the ultimate priority of Security as set out in the Authority's Treasury Management Strategy Statement 2014/15.
- 7.5 There were 204 investments made during the period, totalling £133.8m. The average balance held for the period was £28.6m.
- 7.6 Short term interest rates remain low resulting in a lengthening of investment periods, where cash-flow permits, in order to lock in higher rates of return. Four fixed term investments were taken out during the period. These investments were for amounts ranging from £1.5m to £3.0m. One Investment of £2.7m had matured within the period. The Authority and its advisors remain on a state of alert for signs of credit or market distress that may adversely affect the Authority.
- 7.7 The Authority has budgeted to achieve £68,000 of income from its investment activity in 2014/15. Investment activity from April 2014 to February 2015 has achieved £166,500.00 in interest. The current forecast that is estimated to be achieved is £176,000.00. Of this total, an element is applied to balances held on external income. This external income represents balances from S106 contributions that have not yet been spent. The estimated amount forecast to be applied is approximately £26,000, subject to the balances remaining at the end of the financial year.
- 7.8 The estimated remaining balance of interest (£150,000) received on investment income is budgeted to be apportioned between General Fund and the Housing Revenue Account based on the estimated cash flow position. For 2014/15, the budgeted investment income is apportioned as follows: £43,000 General Fund and £25,000 Housing Revenue Account. Any over or under achievement of interest is apportioned on this basis and the current forecast is anticipated as follows:

	Budget	Projected
General Fund	£43,000	£95,0000
HRA	£25,000	£55,000
External Balances	£ 0	£26,000
Total	£68,000	£176,000

- 7.9 All investments made during the period complied with the Authority's agreed Annual Investment Strategy, Treasury Management Practices, Prudential Indicators and prescribed limits.
