Dear Sir/Madam

I write in my capacity as the applicant in relation to the above matter.

Discussions have taken place with the Environmental Protection Team in relation to the promotion of the public nuisance licensing objective.

I would like to add the following conditions to my application:

3. The existing noise conditions are transferred to this application
4. The document submitted to me and entitled Noise and Customer Dispersal as supplied to the Licensing Authority– March 2016 is added to the licence by way of the following condition:

Prior to the approval of this application the applicant must prepare and submit a Noise and Customer Dispersal Plan for approval by the Licensing Authority. Once approved this document will form the operational parameters under which the premises will be operated and managed. The plan must address the following:

- Noise Pollution
- Dispersal Process
- Add more if necessary

The above plan must be reviewed annually (date to be agreed with Licensing Authority) and the Licence holder shall notify the Licensing Authority of the review commencing. If any amendments are made, such changes shall require the approval of the licensing Authority in consultation with any appropriate responsible authorities.

**Please accept this notice as formal request to amend my application/operating schedule in accordance with the above and note that I agree to these conditions being attached to the premises licence. Furthermore, I confirm that I do not consider a hearing to be necessary.**
